# Standards of Care and Service Quality

## Independent Inspection

Ofsted found Nexus Fostering to be:

'Outstanding' under their inspections of 2011, 2015, 2018 and 2022. Their judgement considered the experiences and progress of children and young people under the agency's care, their welfare and protection, and the leadership of the agency. Nexus Fostering were found 'Outstanding' in all areas.

## The Foster Carers' Charter and Children and Young People's Charter

**The agency endorsed the expectations and spirit of the Foster Carers' Charter, initiated by Government in 2011. Nexus Fostering set out its own Charter, lodged with the Department for Education, in which the agency and its carers make specific commitments to work together as a team to promote and safeguard the welfare of children and young people.**

In partnership with our children and young people, a Children's and Young People's Charter sets out a series of undertakings and expectations in respect of the service offered to children and young people by the agency and its relationship to individuals placed with its fostering families. The Charter recognises their right to be listened to and respected in relation to the decision-making that affects their lives.

The agency and its carers can expect of each other:

- Practice that centres upon the children and young people
- Appreciation of the importance of relationships with the child or young person
- Working in partnership, with information sharing, communication and clear decision-making
- Supervision that offers support, training, advice and development
- Fair and respectful treatment
- Exchange of ideas to develop agency practice.

## Placement of Children and Young People

- Children and young people are placed with foster carers that match their racial, cultural, religious and linguistic background wherever possible
- The views of the child or young person will be sought and considered wherever possible in respect of their placement and in decisions about their lives
- Their psychological, emotional, identity, educational and health care needs are considered, met, monitored and promoted
- The safeguarding and protection of children and young people are of primary concern.

## Assessment, Approval and Panel

**A robust, analytical assessment is managed in a timely way.**

Recommendations to approve and advisory terms reflect the suitability of the household to foster (approval) and the best match for the household (specific matching recommendation.)

The approval Panel, drawn from a Central List of members, provides a quality assurance function independent of the agency in respect of the assessment and review of carers, and may comment upon policy and development issues.

Panel and Central list membership includes a balance of gender, age, ethnicity and experience, and meets the requirements of the Fostering Services Regulations 2011.

## Foster care agreements and undertaking

**Foster Care Agreements set out the expectations and understanding of the agency and its carers and are signed following approval, in compliance with Fostering Services Regulations 2011, Regulation 27(5)(b).**

**Foster carers undertake to:**

- Care appropriately for children and young people and work to Placement Plans.
- Inform Nexus Fostering of relevant significant changes in their household or details.
- Follow procedures set out within the Foster Carers' Handbook.
- Take part in regular, formal supervision.

## Monitoring and Quality Assurance

**The Registered Manager oversees a comprehensive monitoring system in accordance with the requirements of Schedule 6 and the notification stipulations of Schedule 7. Safeguarding matters are a key priority, and the Registered Manager has lead responsibility.**

An Assistant Director has overall responsibility, alongside the Registered Manager, for monitoring the quality of service delivered and adherence to policy and best practice in all domains across the agency.

The Senior Leadership Team considers regular reports under Regulation 35 of the FSR. They are aware of business, recruitment and service delivery activity and factual data is further informed by personal knowledge of the agency's staff, carers and children and young people.

The outcomes and progress for children and young people are monitored and understood by narrative and qualitative measures, and the means of doing so are regularly under review.

Annual audits of practice identify opportunities for learning and development across the agency.

**Service leaders and practice leads in each area promote excellence in key areas. Practice changes and develops as a result of:**

- Research
- Legislation
- Customer, carer or child and young person feedback
- Experience through practice

“As foster carers we develop children’s potential and draw out the gold in them.”

Tim, Foster carer

## Complaints Management

The agency has a clearly defined 'Complaints and Representation' and 'Whistleblowing' process that is accessible to children and young people and their families, foster carers, staff, Central List members, independent assessors, local authorities and other independent persons commissioned to contribute to our service.

Complaints are treated respectfully, efficiently and promptly and resolution is sought as early in the process as possible, without un-necessary escalation. The agency facilitates the intercession of independent persons where necessary. The agency monitors complaints and aims to learn from all situations.

## Safeguarding

The agency sets the safeguarding of all children and young people placed in its care, and that of the children of its foster carers, at the heart of its practice.

All members of the agency and everyone commissioned by it to deliver a service, is expected to adhere to the highest safeguarding practice. The agency incorporates good practice and research evidence into its service delivery. Awareness of up-dated safeguarding knowledge is expected of all staff and carers.
