

We have to stay at home

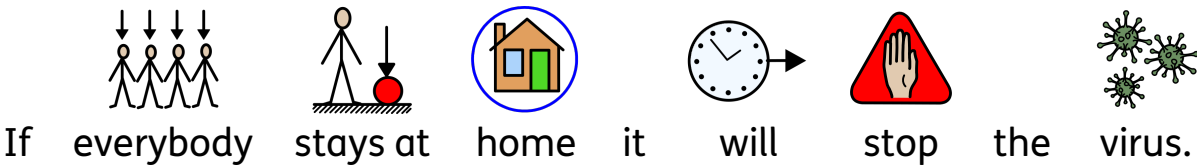

There is a virus which is making people feel very ill.

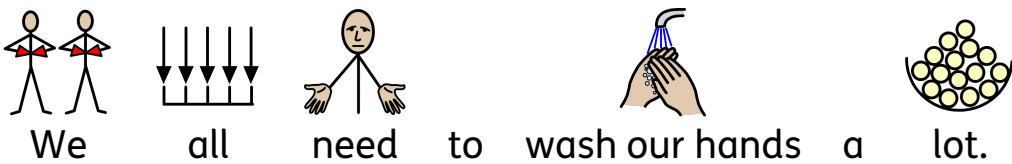

You can catch the virus if a poorly person coughs or sneezes

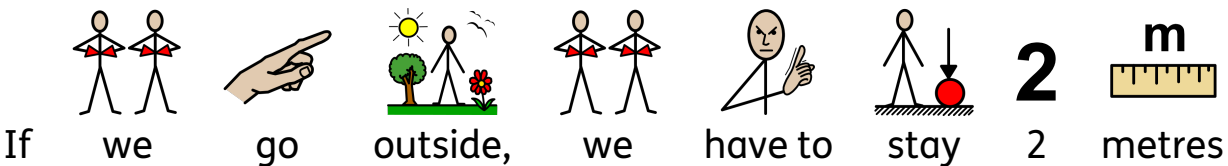

on you.

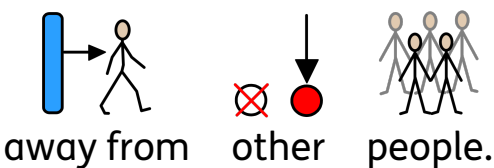

If everybody stays at home it will stop the virus.

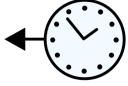

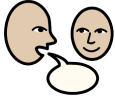

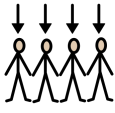

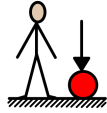

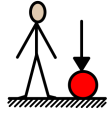

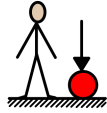

We all need to wash our hands a lot.

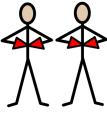

If we go outside, we have to stay 2 metres

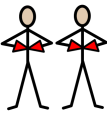

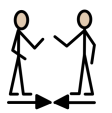

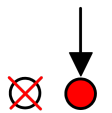

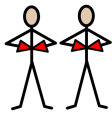

away from other people.

 The  prime minister  has  told  everybody  to  stay at  home.

 We  are  allowed  to go  outside  to go  for a  walk  or  do

 some  exercise.

 We  are not  allowed  to  meet  other  people  when  we  go

 outside.

 We  are  allowed  to go  to the  shops  to  get  food  or

 medicines  for  people  who  are  poorly.
